CAIRO production site is made of the two following facilities :

The Acacias site is dedicated to manufacturing activities – consisting of a complete granulation suite, four compression units and two coating pans – alongside Quality Control, Quality Assurance and IT. The Acacias site was built in 1994 and fully renovated in 2010.

The Palmiers site is dedicated to packaging activities – consisting of three fully automated blister packaging lines and one bottle-filling line – along with a 2,000-pallets-capacity warehouse, a weighing area, Quality Control and a micro laboratory. The Palmiers site was completed in 2006.

MANUFACTURING CAPABILITIES

- Wet granules
- Dry granules
